Education

Bachelor of Engineering, Computer Engineering
Toronto Metropolitan University (Ryerson University)

Toronto, ON
Graduation Date: Apr 2027

Experience

Competitions Team VP

Feb 2023

Metropolitan Engineering Competition

Toronto, ON

- Coordinated the design and implementation of several competition events through zoom and slack, and assisted in budget management for each competition.
- spearheaded competition outreach to the student body through multimedia marketing campaigns to achieve an overall turnout of **over 200 students** across all competitions.
- Oversaw competition implementation and contingency troubleshooting to ensure a smooth event experience for all guests.

Marketing Ambassador

Dec 2024 –

TMU Wave Underwater Robotics Team

Toronto, ON

- Collaborated with a group of peers to script, draft, film, and edit multi-part marketing materials for school outreach
- assisted in managing multiple social networking sites for the group such as Instagram, LinkedIn and the school's email newsletter

Projects

Colligo | Next.js, Sass, Python, Django, PostgreSQL, Docker, AWS

Mar 2024

- A progressive web app aggregating tech jobs, offering advanced search filters, insights, and application management.
- **Automated** collection and processing of **3k+** job postings from career sites, ensuring clean data storage in **PostgreSQL** database.
- Designed a minimal, front-end **user interface** leveraging **REST APIs** for efficient **CRUD** operations on the backend server.

Awards
